SOCIAL MEDIA PACKAGES

# What does offer?

Our social media management is divided into three sections:

1.

## Content Management

Content creation includes creating social media posts for various platforms, including copy & design. Content is monitored & optimised for the best results.

2.

## Community Management

Community management includes responding to messages and comments across different social platforms within the specified response time.

3.

## Ad Management

Ad management refers to the setup, monitoring and optimisation of paid advertising on various social platforms

We have various package and pricing options within each section. You can choose different sized options from each, and you can mix & match. Should none of these options suit your needs simply let us know and we will create a custom quote. All packages include detailed reports that you can understand! This means that you know exactly where your marketing budget is going, and what the results are. We are honest and transparent.

# HOW IT WORKS

- STEP 1**      Select your content management option (how many posts you want).
- STEP 2**      Select your community management option.
- STEP 3**      Decide on your advertising budget, ad management option, and advertising platforms.
- STEP 4**      Based on your selections we will create a proposal for your needs.
